USES AND DISCLOSURES OF PROTECTED HEALTH INFORMATION

A use of PHI occurs within a covered entity (i.e., discussions among staff regarding treatment). A disclosure of PHI occurs when SL reveals PHI to an outside party (i.e., SL provides another treatment provider with PHI, or shares PHI with a third party pursuant to a client's valid written authorization). HIPAA and federal law regulate the disclosure of PHI by electronic transmissions.

SL may use and disclose PHI without an individual's written authorization, for the following purposes:

1. Treatment (including the provision and coordination of care with other professionals, etc.)
2. Payment (to bill and get payment from health plans or other entities, claims management, etc.)
3. Health Care Operations (general administrative activities and operation of SL, resolution of internal grievance, customer service, etc.)

Uses and disclosures for payment and health care operations purposes are subject to the minimum necessary requirement. This means that SL may use only use or disclose the minimum amount of PHI necessary for the purpose of the use or disclosure (i.e., for billing purposes, a therapist would not need to disclose client's entire medical record in order to receive reimbursement. A therapist would likely only need to include a service code, etc.) Uses and disclosures for treatment purposes are not subject to the minimum necessary requirement. SL is required to promptly notify you of any breach that may occur that may have comprised the privacy or security of your information.

Federal law and regulations protect SL's confidentiality of client records and substance abuse client records maintained. It is SL policy that a client must complete an Authorization for use or disclosure of Protected Health information (Attachment 1), provided by SL, prior to disclosing health information for any purpose, except for treatment, payment or health care operations.

Absent the above referenced form, other than for treatment, payment, or health care operations purposes, I am prohibited from disclosing or using any PHI outside of or within the organization, including disclosing that the client is in treatment, unless one of the following exceptions:

SL is permitted and/or required to report or disclose PHI if and when any of the following occur with any SL client:

1. Responding to lawsuit and legal actions (Disclosure by a court order, in response to a complaint against a counselor of SL, etc.)
2. Disclosure is made to medical personnel in a medical emergency or to qualified personnel for research, audit or program evaluation.
3. Help with public health and safety issues (Client commits or threatens to commit a crime either at the program or against any person who works for the program; A minor or elderly

- client reports having been abused; Client is planning to harm another person, including but not limited to the harm of a child; Client reports suicidal ideation or self harm.
4. Address workers' compensation, law enforcement, and other government requests
 5. Respond to organ and tissue donation requests.
 6. In compliance with other state and/or federal laws and regulations.

The above exceptions are subject to several requirements under the Privacy Rule, including the minimum necessary requirement (you may only use and disclose the minimum amount of PHI necessary for the intended purpose of the use and/or disclosure) and applicable federal and state laws and regulations. See 45 C.F.R 164.512. Before using or disclosing PHI for one of the above exceptions, consult me to ensure compliance with the Privacy Rule. Violation of these federal and state guidelines is a crime carrying both criminal and monetary penalties. Suspected violations may be reported to appropriate authorities in accordance with federal and state regulations. Know that SL will never market or sell your personal information.

SPECIAL AUTHORIZATIONS

Certain categories of information have extra protections by law, and thus require special written authorizations for disclosures.

Psychotherapy Notes: I will obtain a special authorization before releasing your Psychotherapy Notes and test results. "Psychotherapy Notes" are notes I have made about our conversation during a private group, joint, or family counseling session, which I have kept separate from the rest of your record. These notes are given a greater degree of protection than PHI.

HIV Information: Special legal protections apply to HIV/AIDS related information. I will obtain a special written authorization from you before releasing information related to HIV/AIDS.

Alcohol and Drug Use Information: Special legal protections apply to information related to alcohol and drug use and treatment. I will obtain a special written authorization form you before releasing information related to alcohol and/or drug use/treatment. You may revoke all such authorizations (of PHI, Psychotherapy Notes, HIV information, and/or Alcohol/Drug Use information) at any time, provided each revocation is in writing, signed by you, and signed by a witness. You may not revoke an authorization to the extent that (1) I have relied on that authorization; or (2) if the authorization was obtained as a condition of obtaining insurance coverage law provides the insurer the right to contest the claim under the policy.

As a covered entity under the Privacy and Security Rules, SL is required to reasonably safeguard PHI from impermissible uses and disclosures. Safeguards may include, but are not limited to the following:

1. Not leaving lab results unattended where third parties without a need to know can view them.
2. Any PHI received by SL about a client or a potential client, may not be used or disclosed for non-work purposes or with unauthorized individuals. SL may only use and disclose such PHI as described above.
3. When speaking with a client about his or her PHI where third parties could possibly overhear, move the conversation to a private area.
4. Seek legal counsel in uncertain situations and/or incidences.

YOUR CHOICES:

For certain health information, you can tell me your choices about what I share. If you have a clear preference for how I share your information in the situations described below, talk to me. Tell me what you want me to do, and I will follow your instructions. I may request you sign a separate document if you authorize me to share certain PHI. You may revoke that authorization at anytime for future disclosures.

In these cases, you have both the right and choice to tell me to:

- Share information with your family, close friends, or others involved in your care
- Share information in a disaster relief, situation
- Include your information in a hospital directory

If you are not able to tell me your preference, for example if you are unconscious, I may go ahead and share your information if I believe it is in your best interest. I may also share your information when needed to lessen a serious imminent threat to health or safety.

In these cases I will never share your information unless you give me written permission:

- Marketing purposes
- Sale of your information
- Most sharing of psychotherapy notes

In the case of fundraising:

- I may contact you for fundraising efforts, but you can tell me not to contact you again.

Mandatory Disclosure Statement

This disclosure statement contains important information about your mental health that I am required to disclose and the policies and procedures of my practice. This disclosure statement is HIPAA compliant. By signing this disclosure statement, you acknowledge you have received a copy of my Notice of Privacy, Policies and Practices and Compliances with HIPAA Regarding Confidentiality of Client Records and Dissemination of Information.

About me:

I completed my Master's Degree in Counseling Psychology at Pacifica Graduate Institute in Santa Barbara, CA in March 2012. I have been working with clients in Community Mental Health since July 2009. My education builds on a Bachelor of Science in Health Care Management and an Associate of Science in Dental Hygiene.

I am trained and certified in EMDR – Eye Movement Desensitization and Reprocessing.

I have been training with the Couples Institute on the Developmental Model (Bader/Pearson) since 2013 to facilitate my work with couples.

I have completed the training for DBT – Dialectic Behavioral Therapy.

My primary goal is to meet the client where they are. My focus is on depth psychology, which calls to attention the importance of what lies below the surface of conscious awareness. This type of intervention has its foundation in Analytical Psychotherapy. This approach attempts to create, using a symbolic approach, a dialectical relationship between consciousness and the unconscious. The therapist encourages and guides communication between the two systems via an imaginable

process using “symbolic language”, as in dreams, fantasies, etc. Increased awareness, and thus symptomatic relief, is brought about by the translation and interpretation of this “symbolic language.”

The Mental Health Licensing Section of the Division of Registrations regulates the practice of licensed or registered persons in the field of psychotherapy. The Board of Registered Psychotherapist Examiners can be reached at 1560 Broadway, Suite 1350, Denver, Colorado 80202, (303) 894-7800. As to the regulatory requirements applicable to mental health professionals:

- A Registered psychotherapist is a psychotherapist listed in the State’s database and is authorized by law to practice psychotherapy in Colorado, but is not licensed by the state and is not required to satisfy any standardized educational or testing requirements to obtain a registration from the state.
- Certified Addiction Counselor I (CAC) must be a high school graduate, complete required training hours and 1,000 hours of supervised experience.
- Certified Addiction Counselor II (CAC II) must complete additional required training hours and 2,000 hours of supervised experience.
- Certified Addiction Counselor III (CAC III) must have a bachelor’s degree in behavioral health, completed additional required training hours and 2,000 hours of supervised experience.
- Licensed Addiction Counselor must have a clinical master’s degree and meet the CAC III requirements.
- Licensed Social Worker must hold a master’s degree in social work.
- Psychologist Candidate, a Marriage and Family Therapist, and a **Licensed Professional Counselor** must hold a master’s degree in their profession and have two years of post-masters supervision.
- A Licensed Psychologist must hold a doctorate degree in psychology and have one year of post-doctoral supervision.

In a professional relationship:

- Sexual intimacy is never appropriate and should be reported to the board that licenses, registers, or certifies the licensee, registrant or certificate holder.
- It may be inappropriate for therapists and clients to have a “dual relationship”. Specifically it is unethical for the therapist and client to have other business or personal relationships in addition to the therapeutic relationship/ If you or a member of your family has a person or business relationship with your therapist or her family, please discuss this immediately with your therapist.

You are entitled to receive information from your therapist about the methods of therapy, the techniques used, the duration of your therapy (if known), and the fee structure. You can seek a second opinion from another therapist or terminate therapy at any time.

I have read the preceding information, it has also been provided verbally, and I understand my rights as a client or as the client’s responsible party.

Confidentiality

All communication between you and I, your therapist, will be held in strict confidence unless you provide written permission to release information about your treatment. If you participate in marital or family therapy, I will not disclose confidential information about your treatment unless all person(s) who participated in the treatment with you provide their written authorization to release. However, it is important that you know that I utilize a “no-secrets” policy when conducting family or marital/couples therapy. This means that if you participate in family, and/or marital/couples therapy, I am permitted to use information obtained in an individual session that you may have had with me, when working with other members of your family. Please feel free to ask about this policy and how it may apply to you.

There are exceptions to confidentiality. For example, therapists are required to report instances of suspected child or elder abuse. Therapists may be required or permitted to break confidentiality when they have determined that a patient presents a serious danger of physical violence to another person or when a patient is dangerous to him or herself. A court order signed by a judge requires release of information. In addition, a federal law known as The Patriot Act of 2001 requires therapists (and others) in certain circumstances, to provide FBI agents with books, records, paper, and documents and other items and prohibits the therapist from disclosing to the patient that the FBI sought or obtained the items under the Act.

Minors and Confidentiality

Communication between therapists and patients who are minors (under the age of 18) are confidential. However, parents and other guardians who provide authorization for their child’s treatment are often involved in their treatment. Consequently, I may discuss the treatment progress of a minor with the parent or caretaker. Clients who are minors and their parents are urged to discuss any questions or concerns that they have on this topic with me.

Appointments Scheduling and Cancellation Policies

Sessions are typically scheduled to occur one time per week at the same time and day if possible. I may suggest a different amount of therapy depending on the nature and severity of your concerns. Your consistent attendance greatly contributes to a successful outcome. In order to cancel or reschedule an appointment, you are expected to notify me at least 24 hrs. in advance of your appointment. **If you do not provide at least 24 hours notice in advance, you are responsible for payment for the missed sessions.**

Therapist Availability/Emergencies

Telephone consultations between office visits are welcome. However, I will attempt to keep those contacts brief due to my belief that important issues are better addressed within regularly scheduled sessions.

You may leave a message for me at any time on my confidential voicemail. If you want me to return your call, please be sure to leave your name and phone number(s), along with a brief message concerning the nature of your call. Nonurgent phone calls are returned during normal workday (Monday through Friday) within 24 hours. If you have an urgent need to speak with me, please indicate that fact in your message and follow any instructions that are provided by my voicemail. **In the event of a medical emergency or an emergency involving a threat to your safety or the safety of others, please call 911 to request emergency assistance.** I am not able to return phone calls after 9 P.M. or on Saturdays or Sundays.

About the Therapy Process/Informed Consent Information

It is my intention to provide services that will assist you in reaching your goals. Based upon the information you give me and the specifics of your situation, I will provide recommendations to you regarding your treatment. I believe therapists and patients are partners in the therapeutic process. You have the right to agree or disagree with my recommendations. I will also periodically provide feedback to you regarding your progress and will invite your participation in the discussion.

Due to the varying nature and severity of problems and the individuality of each patient, I am unable to predict the length of your therapy or to guarantee a specific outcome or result.

If you are entering psychotherapy for the first time you may not be aware that often the emotional pain that causes a person to seek therapy can be increased temporarily in the therapy process. The other side of this truth is that the psychic container of the therapeutic relationship can provide the safety and support that makes such pain bearable. You will be paying me for my time, attentive and informed listening, important guiding questions and some well-established therapeutic techniques and tools. I will not give you direct advice unless you are in a crisis or some kind of danger.

I may recommend that you utilize outside support such as an M.D. referral, evaluation by a psychiatrist for medications, a therapy or support group in the community that may enhance the therapeutic process or your chosen spiritual support or church.

Termination of Therapy

The length of your treatment and the timing of the eventual termination of your treatment depend on the specifics of your treatment plan and the progress you achieve. It is a good idea to plan for your termination, in collaboration with me. I will discuss a plan for termination with you as you approach the completion of your treatment goals.

You may discontinue therapy at any time. If you or I determine that you are not benefiting from treatment, either of us may elect to initiate a discussion of your treatment alternatives. Treatment alternatives may include, among other possibilities, referral, changing treatment plan, or terminating therapy.

Your signature indicates that you have read this agreement for services carefully and understand its contents.

Please ask me to address any questions or concerns that you have about this information before you sign!
